

## This is That Which was Spoken Of... (16<sup>th</sup> Feb 2023)

### [AUDIO VERSION](#)

Most of you have, I hope, heard about the train with a load of toxic chemicals which derailed on 3<sup>RD</sup> Feb at East Palestine, Ohio, in the United States. Let me share what is known:

On 6<sup>th</sup> Feb, officials breached 5 railway containers and did a so-called 'controlled release' of the gas by igniting it, at 3:30pm that day. The thick column of smoke that darkened the sky above East Palestine after the derailment contained fumes from the toxic chemicals stored in the wrecked cars, such as vinyl chloride, hydrogen chloride, and phosgene.

Mike Adams, *who is beyond alarmed*, says that vinyl chloride, when it burns, creates hydrogen chloride which, in turn, when it interacts with water, creates hydrochloric acid. This is what is falling on the farm fields and the water surfaces.

<https://beforeitsnews.com/opinion-conservative/2023/02/situation-update-feb-14-2023-toxic-gas-cloud-unleashed-over-ohio-as-authorities-stage-criminal-cover-up-mike-adams-must-video-3654930.html>

Vinyl chloride is associated with an increased risk of a rare form of liver cancer, hepatic angiosarcoma, along with primary liver cancer, brain and lung cancers, lymphoma, and leukemia, [Cancer.gov](https://www.cancer.gov) reports.

WKBN [reported](#) that the U.S. Environmental Protection Agency cautioned Norfolk Southern that an additional three chemicals were aboard the breached and derailed trains: ethylene glycol monobutyl ether, ethylhexyl acrylate, and isobutylene. Silverado Caggiano, a hazardous materials specialist, told WKBN that ethylhexyl acrylate is a carcinogen that can cause burning and irritation in the skin and eyes, as well as breathing problems. He noted that isobutylene can also cause dizziness and drowsiness if inhaled.

Phosgene, one of the gases released by the deliberate fire causes vomiting and breathing problems and was used during WW1 as a CHEMICAL WEAPON. Yes, you heard that correctly! A chemical weapon was ignited and its spread accelerated deliberately. Yet, on Feb 8<sup>th</sup>, the citizens of East Palestine were told they could return to their homes. Some are reporting headaches and nausea as chemicals carried on the train continue to be released to air, surface soils and surface water. Quality of Ohio river water is being monitored, it is said, bearing in mind that the drinking water of some 5 million people could be affected. More than 25 million people, almost 10% of the US population, live in the Ohio River Basin. The Ohio river feeds directly into the Mississippi River.

What's more concerning is the potential impact of the spill and release of chemicals to groundwater. Kurt Rhoads, an engineering professor at Case Western Reserve University, said surface water contamination will likely only be a problem for a short period of time. But any effects on groundwater will unfold over a longer term, Rhoads said, and could present a problem for East Palestine residents with private wells.

Now here is something disturbing: *"White Noise"* is quite bizarrely a film about a chemical train wreck in Ohio, and as [even CNN pointed out](#), [many of the](#)

*extras for that movie were locals from East Palestine Ohio who, in the film, evacuated, then months later had to do so in real life!* So, this strongly suggests that the poisonous gas release was no accident but unleashed in the area of prime farm land in order to greatly impact both the purity of the water supply and the nation's food supply. The movie in 2022 was therefore predictive programming.

## **“He will tell you the things that are to come...”**

I need to share a warning dream I was given on the 2nd September 2020. At the time, I had some thoughts about the meaning of the events in the dream but this week, I realised that it was actually depicting what has unfolded in Ohio in the last week. This has been such a lesson to me not to be in a hurry or jump to conclusions as to the meaning of a dream or vision. Sometimes, the Holy Spirit only makes things completely clear when the event He is giving foreknowledge about actually takes place.

Even in 2020, because of certain elements in the dream, it seemed more than likely that it took place on American soil. In the first scene, I was in an aeroplane with two young men of Middle-Eastern descent, getting ready to jump out of the plane. They were very excited and jovial about the great honor and opportunity they had been awarded of doing this jump. Next minute, we were all in the air, although I do not remember jumping. I could see them just below me, still talking excitedly. Below us were rural farmlands and in the distance, a city, which seemed small because of the distance. And then in their left hands I saw each held a device with a button and their thumbs were hovering, about to press them. Suddenly I realized these were suicide bombers and they were excited about giving their lives for their cause. They both triggered their devices simultaneously, but instead of an explosion, I saw large silver objects like giant balloons inflate and I could no longer see the young men. The objects were the onion shape of the roof on a mosque. The one moved directly above the other, looking like a double portion of the same thing.

In the next scene, I was standing in front of a large sandstone-colored building with columns outside the door, and I heard the words 'city hall'. To the right of the door was a large grey gas canister. Suddenly it floated into the air and as it ascended, holes appeared on the sides. For a small moment, I saw white flakes swirl into the atmosphere and then they vanished and I knew poisonous gas had been released into the air and I must not breathe it in. I put my hand over my nose and mouth and began to run towards home. As I did so, I passed a long queue of people, waiting to go into the city hall. So, I shouted to them

repeatedly to cover their mouths and noses as there was poison in the air. Each time I said this, I knew I was putting myself at risk by speaking, but I had to warn them.

In the third scene, I was inside a building and considered washing my skin to rinse the poison residue away, but then I realized that the water supply had also been poisoned. I looked into the fridge for milk and then first worked out how long it had been in there, before drinking some. I also began to warn the other people in the house against using the water in the taps. They told me I was going overboard. Suddenly I noticed that their faces were all covered in a fine red rash like hives. As I pointed this out, they told me that my face looked the same. I couldn't feel any pain but when I checked in the mirror, I saw it was true. So, I searched through my medicine cabinet to find some sort of soothing antihistamine cream to put on.

The Lord began to speak at that point:

**"Woe to the city that has dwelt carelessly, that has spent her daytime hours in revelry and sport. Woe to those who think to hide their evil deeds from the Lord of Hosts. For I have released an enemy among you and you shall not know it until it has done its work. Your enemies laugh as they execute this latest scheme for they know your national guard has no power against this foe. Creeping into houses and running down streets and barrelling into the secret place of your lungs. There is no escaping and suddenly it comes, in broad daylight when men say peace and safety, then it is triggered and the slain shall be many. Even your water supplies will be tainted with this toxin and your cattle shall lie dead at the well. Heed My counsel and come into your chambers until this peril is past. Gather for yourselves now water supplies and balm for your skin. The pure milk of the Word and the milk of your cattle, 3 days old, shall be safe but do not turn on the taps, once news of this attack breaks out. Your geysers have fresh water but any infilling will mix toxic with fresh and all shall be contaminated. Woe, woe, woe. The enemy is at the gate. What has been rumoured and whispered about in the circle of the seeking ones is now at hand."**

Just to make sure I had understood correctly, I asked, "Lord are they going to release poisonous gas and also poison a city's water supplies?"

"Yes, daughter, two cities... "

Then once again, in the dream, I am in the air above these two young men who seem to be gladly giving their lives as suicide bombers 'for the cause' and I wonder what happened to their bodies once the silver balloon objects inflated.

My eyes search the ground to see if I can spot them and I see hundreds of dead birds instead.

The Lord says, "**This shall be a sign that it is here. When birds fall out of the sky, you know that the air contains poison. Run home and close all your windows and doors.**"

On waking, the thought came to me to wash my face in milk and then apply honey. I got up and began to do a search on the effects of gas attacks and discovered that some gases used as weapons of mass destruction manifest first with a skin rash.

The dream in 2020 indicated that there was going to be a release of poisonous gases attack, and it would be over rural farmlands with a city in the distance. The fact that there were TWO men jumping out of the plane confirms that there is going to be poisoning of the AIR and the WATER supplies of TWO different cities. The people in the queue seem to be waiting to vote or queueing up for another reason outside a city hall with big sandstone columns. After some research, I discovered Columbus Ohio's city hall has the exact columns I saw in the dream.

Columbus and East Palestine are only **1 hour 49 mins** far apart! Prevailing winds tend to blow northwest to southeast. Columbus (the capital of Ohio) is east of Palestine! So, back to the dream, when I am running and warning people in a city with a town hall like the one above, it seems I was in Columbus, Ohio. The dream mentioned two cities' water being poisoned. I do not know which other city's water will be poisoned by this attack. I sure it will be evident soon enough.

The wind actually changed direction several times after the gas release event. This model shows winds blowing straight to Lake Erie. <https://aircocalc-www.createlab.org/pardumps/plumeviz/experiments/video/ohio-train-fire/20230206.mp4>

It's very interesting in the dream that balloons released in the sky are connected to the timing of this poisonous gas release. In fact, when the balloons inflated, the two bombers were hidden from view! This indicates that the truth about the source of the gas attack will be obscured or covered up by the release of something else 'big' and just as mosque rooves are connected to those antagonistic to the USA (calling it the 'Big Satan'), so too the 'something big released as a diversion will seem to carry dangerous connotations... Have you noticed in this last week that the mainstream media has not been reporting on the disastrous gas release in Ohio, but rather majoring on different balloons and other objects spotted in the skies and multiple videos released of them being shot down. In fact, the day after the train crash in Palestine, Ohio, the first balloon was shot down:

<https://news.sky.com/story/us-shoots-down-chinese-spy-balloon-china-calls-it-obvious-overreaction-12803499>

When I asked the Lord why He included the suicide bomber element in the dream, He pointed out that it indicated a deliberate, sudden and devastating attack – a terrorist action, where the triggering of the event (finger on the button) was deliberate and minutely coordinated for a specific time. Also, their absolute delight about participating in this destructive plan indicates that those involved in the gas attack in Ohio have no conscience about what they have done but rather view it as 'doing their part' in furthering the aims and goals of their particular group. Remember with the whole poison in the arm schemes, it has been those who believe firmly in eugenics – the need to reduce the world population by any means possible – that have been driving the whole initiative. Did you notice it was the authorities who ignited the railway cars full of toxic gas, quite likely carrying out orders from a much higher source...? Remember the Lord said that the enemy is within the gates!

I found it no coincidence that the Lord depicted the two men as being of Middle-Eastern descent and the town where the toxic gas was exploded is called Palestine! Palestine is the ancient name of the nation of Israel. Often when the American government has been actively involved in furthering the division of the land of Israel, it has resulted in some form of judgement on USA soil.

This ecological disaster is far from over. In fact, it has only just begun and, just as with the pharmakeia scheme, deaths down the line will be attributed to a host of other causes except the original execution of the plan for destruction.

Proverbs 22:3 & 27:12 say that a wise man sees evil and hides himself, the foolish pass on and are punished with suffering! When God puts the same phrase twice in one Book, it means we must pay close attention. This dream is a warning, not only to those in the immediate vicinity of the current poisonous gas release but to all of us to be alert, prepared and equipped. The enemy is within the gates. So, let's end off by recapping on the necessary preparation and advice given by the Lord for protection during this attack:

1. Gather sealed water supplies.
2. Get some sort of soothing ointment for any skin exposed to this gas.
3. Only consume food and liquids that have been in your refrigerator for at least 3 days before the release of this gas attack (Feb 6<sup>th</sup> 2023 for Ohio). Milk, because it is alkaline will neutralize any acidity on the skin and help soothe the rash. Also wash your eyes out with milk if exposed.
4. Honey will aid in healing the skin rash once it has been rinsed off with milk.
5. Stay inside and keep your doors and windows shut if you live within the vicinity of the cities where these gas attacks take place, until the Lord releases you to go outside.
6. Do not use tap water once the news of this gas attack is released (that would be since Feb 6<sup>th</sup> 2023).
7. It might be a good idea to wear a good quality mask, at least N95, if you need to go outside.
8. Protect your domestic animals as far as you are able.

May the Lord have mercy and protect the remnant and the innocent.

Selah
