

## In Egypt but not of Egypt ~ Audio version

Hello, everyone.

I've got a word that I find very encouraging to share with you. I was reading the news about a week ago and I saw that Iran will be the first country to introduce food passports with biometric identity and people will not be able to buy food without them. And I said to the Lord, "Oh, Lord, this is terrible. How will we escape this?" And He said to me,

**"You won't. You will dwell in the midst of it, untouched by it and not connected to it. They will disconnect you from society, thinking that by so doing they will kill you. But you will be under My cloud and My pillar of fire, and you shall not lack for anything."**

I was greatly encouraged by that and I said to the Lord, "So Lord, must I still collect and store food?" And He replied,

**"You must, for you must be able to share with others who have nothing. Very few have the faith to believe for provision to manifest out of thin air like the manna did. But if they have a morsel as a starting point, they will have the faith to prepare the meal they have before them. And then they will notice that it is not diminished by their dishing it out. In this way, many will come to true faith in the God of the impossible. Many will turn from their idols and look to Me as their sole source of provision in these days. Remember, it was a mixed multitude that left Egypt and all were fed and provided for as they were separated unto Me in the wilderness. Some come to faith by experience of My goodness and others as a result of the faithful prayers of parents and grandparents. Oh, I have many ways to reap the harvest that lies white before Me! Be led of My Spirit and lean not on your own understanding. Remain consecrated to Me, no matter the price they say you will pay for your stand - and you will see wonders!"**

As I spent time meditating on what the Lord had said to me - that we would dwell in the midst of it, untouched by it, and not connected to it, I was reminded very much of the Israelites in Egypt during the ten plagues. The first three plagues; the blood, the frogs and the lice affected everybody. But when it was time for the fourth plague, the Word

says that God put a distinction between the Israelites and the Egyptians. And the fourth plague, the plague of gadflies, did not touch the Israeli slaves. The gadflies were biting insects; insects that pierce the skin and inject the venom and toxins into the human body, causing irritation, pain and swelling. So, I found it extremely interesting that in our present world circumstances, we are now dealing with a plague that's the world says the solution is to pierce the human skin and to inject substances in it - and we are discovering that it is in fact venom and toxin that's being introduced into the body.

In the days of Egypt, it was the fourth plague where God put a distinction between His people and the Egyptians or the people of the world system. God's people did not have their skins pierced by venom. And then from that point on, from the fourth plague to the 10th plague, there was a distinction and a separation between the Israelites and the Egyptians, and the next 6 plagues were inflicted upon the Egyptians, and the Israelites were untouched by them.

In the fifth plague, the cattle mysteriously died overnight, and in those days, cattle and the owning of flocks and herds was a sign of personal wealth. So, the fifth plague was a strike against the personal wealth of the world system. The sixth plague was boils or pustules of fluid on the skin. Interesting that the current. 'pandemic' of monkeypox produces pustules on the skin...

The seventh plague was the hail and fire, which destroyed a portion of the food supply - the barley and the flax was smitten. So, a portion of the food supply was destroyed by the seventh plague, which rained hail and fire from the sky. The eighth plague (the locusts) destroyed what was left of the food supply in Egypt. How interesting that we are facing a situation now where there is widespread talk of world famine by the end of the year. And we have seen the decimation of food supplies in many, many continents; both by artificially engineered weather, by deliberate destruction of harvests, by war interfering with the delivery of food to different nations. In Egypt, the seventh and the eighth plagues completely destroyed the food supply.

The ninth plague was three days and three nights of dense darkness and no one rose from their beds in that time - but there was light in the houses of the Israelite slaves; supernatural light. And then, of course, the 10th plague was the Destroyer which passed over at midnight and killed the firstborn of Egypt. After that, slaves were thrust

out of Egypt into the wilderness to be completely cared for and led by the God that they belonged to.

So, as the Lord said at the beginning of this message about this food passport and biometric ID system, we would dwell in the midst of it, untouched by it and not connected to it. We will be very much like the slaves in Egypt - untouched by the things that strike the world's system and its food distribution, yet still living in the midst of all that is unfolding. And God has promised that He will still provide for us. Those who fear the Lord will be kept alive in famine. And He speaks also of wonderful, miraculous multiplication of food, even among those who previously have had no faith in God, who previously were worshiping and bowing to their idols - the various things of the world system, the idols of Egypt.

You know, as the plagues passed by in Egypt, by the time it got to the seventh plague, the plague of hail and fire, the Word says that those Egyptians who feared the Lord heeded Moses' warning and they brought their cattle into the houses. So as the plagues successively fell, there were people that were not confessing believers, who developed a fear of the God of the Israelite slaves. They knew that when His servants spoke, that word was truth and what God said would come to pass. And so they started to make decisions in their lives, according to what the servant of the Lord was saying was going to happen. So along with the Israelites who brought their cattle into the houses, some of the Egyptians also did that. As I mentioned, cattle are a sign of personal wealth and the fifth plague had already caused many of the cattle to die (So a great reduction in personal wealth overnight and a shaking of the financial system of Egypt), the bringing of cattle into the house to protect from the seventh plague speaks about a relocation of your wealth source out from under the umbrella of Egypt's protection, and bringing it under the covering of your own house. Whether that's a withdrawal of your finance out of bank accounts and keeping them personally, or the gold or the silver brought in your own house and under your own care and under your own eye, because the plague and the judgment upon the world's system will surely cause a great destruction in personal wealth in the earth.

So, I just wanted to encourage you with this word. Remember, in Egypt, the Israelites lived in an area called Goshen. And Goshen means 'drawing near'. So, in this time when God judgments are being executed upon the systems of this world, as the kings of

the Earth band together and shake their fists at God, Goshen, the place of drawing near to God, is the place where there is protection. It was in Goshen that no gadflies touched the skin of the Israelites. It was in Goshen that cattle did not die of the plague. It was in Goshen that there were no boils which erupted. It was in Goshen that the plague of hail and fire did not fall. It was in Goshen that the locusts were not allowed to maraud. And it was in Goshen where there was light in the houses of the Israelites when there was dense darkness for three days and nights in Egypt. So, now is a time to draw near to the Lord as never before. God put a distinction and a separation between His people and the people of Egypt while they were still in slavery in Egypt. So, while we are still being forced to operate by the systems of this world that are governed and manipulated by evil men, God is still putting a distinction between His people and the people of the world. We are not yet completely under his care and completely separate from the world system. We are in the world, but we are not of the world. But the line of distinction will become clearer and clearer as to who are the people of God and who are the people who worship idols, because the plagues of judgment will fall upon those who worship the idols of Egypt and those who do not bow their knee before the Lord of Hosts.

So remember to be wise and to store up! Stock up on food and water, on fuel and the things that you will need and know that you are not stocking up for yourselves alone, but so that you can share with others who have nothing; knowing that in your sharing, you are putting into their hands the morsel that God will use to work miracles before their eyes and manifest and display that He is - The God who provides in famine. And many people will come to the Lord in the days of the miracles of multiplication. How wonderful our Lord is and how exciting to hear that He has so many different methods to reap the harvest that lies right before His eyes. Finally, remember the last thing He said to me:

**Remain consecrated, no matter the price they say you will pay for your stand - and you will see wonders.**

Hallelujah.
