

# Pointers in the Day of Trouble

9<sup>TH</sup> Oct 2023

Hello, precious saints.

I was going to record part two of Rivers of Oil, but seeing as war has broken out in Israel, I just want to share a few thoughts about that, before I share Part two. I'm very, very grateful to the Lord that I've been following the Early Barley Ripeness calendar and have been able to mark the feasts and hear prophetically from the Spirit a month before the Hillel calendar is celebrating the feast because now we see that all these people that are following the Hillel calendar and went to Israel to celebrate the Feast of Tabernacles have now been caught up in this horrendous war that is unfolding. This really stressed to me the importance of keeping in step with the Spirit and not being bound by forms or habits or traditions, but really listening to what the Holy Spirit is saying, because it can be a life-saving experience. We see with Mary and Joseph, when Jesus was born and Herod wanted to murder all the children under the age of two to kill the new king that had been born, Joseph was warned in a dream to leave immediately

in the middle of the night - and he was obedient. He and Mary and little baby Jesus got safely to Egypt before the carnage unfolded in Bethlehem. So, we really must pray concertedly that the Holy Spirit would sharpen our spiritual hearing and our spiritual sight in these days.

Now, I'm not going to make any comments on who's responsible for what or who's behind what. I just want to bring some points out that I've been pondering and also hearing from the Spirit - and the number one thing I heard when the attacks by Hamas broke out in Israel, was that we need to pray as much as possible in these days in the Spirit, pray in tongues, because if you pray only with your understanding, you are going to find yourselves led by the things that you're seeing on the news, by both the true and the false information that is being put out in the media at this time. Nearly everybody who has got a tongue in their head has got something to say about the situation, and the number of videos and messages that have been flying around the Internet and on social media is absolutely overwhelming. It's easy to get very emotionally involved and swayed ...and even deceived. So, precious saints pray in tongues as much as possible, the Holy Spirit giving you the words, that you can pray in accordance with the will of God. It's also safe to pray that all that stands against the will of God and the blueprint of God in the earth would be subdued and overcome.

It on that was on Saturday, the Sabbath, that the shooting broke out and the murdering and the taking of hostages began. On Saturday night, I had great trouble sleeping, and in the very early hours after midnight on the Sunday morning, I was lying in bed with my eyes closed and I suddenly saw a picture of a match being struck and set on fire. It was done on a surface - It I don't know if it was the side of a matchbox, but it was a horizontal surface, like a tabletop almost. The match was struck and burst into flame. And I knew the Lord was showing me that what happened and is still unfolding in Israel was the striking of a match. And just as when a match is struck and a single flame is ignited, that single flame is used to set a whole bundle of kindling alight, and many, many flames, and a big, raging fire is caused by a single flame. I knew that this event that was triggered in Israel has struck the match in order to ignite a raging fire in the Middle East - and I believe that the Ezekiel 38 War will follow out of this. Ezekiel 38 lists all the countries that that are involved ,as does Psalm 83. They are the old fashioned names, but you can look up on the Internet, which nations they refer to.

The other thing I wanted to mention was that Dana Coverstone, who is an American pastor, was given quite a few prophetic dreams. I haven't listened to him for a long time, but a while back, he had a prophetic dream where he was shown the pages of a calendar, the one with one month on one page, and then you flip it over and it's the next month. And the pages flipped over until it came to the month of October. And then the second and the third week of October were blocked out in red. And then a big ring was put around the 3rd of November. So, this Sabbath was 7th October, and it was the end of the first week of October. So, the fighting, murdering and hostage-taking and everything that's gone on began at the end of the first week and the beginning of the second week of October. And I do believe for this week and next week, there's just going to be a dramatic escalation. I mean, it's only Monday night and the amount of things that have unfolded since Saturday are just mind blowing! So many different nations are getting involved and choosing sides!, I've just read something now about Putin saying that if America gets involved in the war in Israel, then Russia will openly stand with the Palestinians... Now, these things are very scary because we see the whole world being sucked into a war that was triggered and the match struck in tiny little Israel. Israel is really the time clock that we need to watch prophetically.

So, I'm not sure why the 3rd of November was ringed in that dream of Dana Coverstone, but the second and third week of October, God definitely highlighted in red. The interesting thing is also that when I saw that match being struck, the hand of somebody struck that match, but I did not SEE the hand, which gives an indication that what has unfolded in Israel has really been triggered by an unseen hand - and it's not the hand of God, so much as hidden puppeteers behind the scenes.

I really want to warn you not to get sucked into everything that's going on, on social media, because it will bring an incredible amount of division amongst Believers. We must remember to see the big picture, which is that most of the governments of this world are at this time involved in wanting to bring about the New World Order. The motto of the New World Order is 'Out of chaos, Order!' And therefore they create the chaos and then institute their own version of order. I do believe that this match that was struck will also lead to nuclear war. So, we're living in extremely worrisome days, Beloved, and we must hide ourselves under the shelter of the Almighty. As Psalm 91 speaks of, we must dwell in the secret place of the Most High. We must position ourselves at the golden altar, worshiping and praying, not so much with your

understanding, but praying in tongues, because we do not understand everything that's going on.

Remember this also, that the Lord spoke to me about a year being like a watch of the night and that 5784 is marked out as the morning watch year. I've spoken much to you about how the first part of the morning watch is just as dark as the middle of the night, and we are presently in that very dark part of the morning watch year. I spoke also a number of podcasts back about traversing through eight months of darkness before it starts to get a little bit lighter... And we do find ourselves in that period now.

The other thing that I was reminded of is that the antichrist is the counterfeit morning star. Jesus is the true Morning Star, and the antichrist will be the counterfeit morning star, the son of satan masquerading as the son of God and the Savior. He will probably step into visibility round about Passover 5784, which is half way through the morning watch year. That's a very well timed appearance that I believe will be made around about that time, where he will be recognized because he will present himself as a savior.

Remember that the Word says when they say 'peace, peace', then sudden destruction will come. Well, it's interesting that the United Nations Day of Peace was held within the last week or two, and the big rave party nature festival thing that was held in the desert in Israel that was attacked by Hamas was an event held for the cause of peace. And while they were partying, sudden destruction came!

So, the chaos will be caused. The destruction will be widespread, and then the antichrist will step onto the stage as the savior, to bring about his counterfeit shalom or peace.

The other interesting thing is that the Debt Clock, which is a website that records the debt of the American nation on the Internet. Has displayed a scripture twice in the month of October. It's never done this before. On the 3rd of October and on the 8th of October, it displayed a scripture. The one on the 3rd of October was about Jesus overturning the tables of the moneychangers, which is very interesting considering it's a National Debt Clock. The second scripture that was displayed right up until the stroke of midnight on October 8th was Revelation 1:10, which says that John was in the spirit on

the Lord's day, when he heard a voice like a trumpet. And it is that scripture text is positioned over an ancient map of Jerusalem, which I find very interesting. So, these are things that have come to my attention in the last couple of days. I would say that that Debt Clock with the scriptures is basically alluding to a financial crash and the overturning of the tables of the moneychangers. It's also a cloaked reference to the Day of the Lord using the Scripture quoted on 8<sup>th</sup> October.

The other thing I wanted to point out that is that there has been a dramatic increase in large magnitude earthquakes. On the 7th of October when the Hamas attack began, that day, there were six very high-magnitude earthquakes in the earth. One was in Papua, New Guinea, one was in Afghanistan, and I can't remember the places of the others, but these are birth pangs. I've spoken often about the labor of a pregnant woman and the birthing process and how in the beginning, when you first have a contraction, you aren't even quite sure it is a contraction. It feels like your back is a bit sore or something, or it's just a twinge and then a bit of time goes by and then you have another one. You think, "Oh, oh," and then the waters break and you KNOW you are in labor. Then the labor speeds up and the birth pangs are closer together, and then you get into the thick of labor which is very painful, and there is no stopping the coming of that baby. Well, six high-magnitude earthquakes in one day, on the same day as Hamas starts to attack the Israeli civilians and penetrate the border fence by air, by land and by sea into the nation of Israel, is not a coincidence. These are birth pangs of the time of Jacob's trouble - the time of Great Tribulation or 'thlipsis' as I spoke about in my last message.

The other thing I want to bring to your attention in October (this month of October is a very pivotal month), is that there's both a solar eclipse, a ring-of-fire solar eclipse on the 14th of October. That's this next Saturday, or Sabbath. It will be seen over the USA and South America. It is going to be seen for a long time in the USA; practically the whole morning, that Ring of Fire solar eclipse will be visible, which is very interesting, because a solar eclipse is said to be a sign in the heavens. The solar eclipse is a sign to the other nations of trouble coming, and a lunar eclipse is a sign for Israel. So, on the 14th of October, which is a Sabbath, there is this ring-of-fire total solar eclipse over America, both north and south, and it is around the time of a new moon. Now I just want to say that the US sending their biggest aircraft carrier into the Mediterranean in preparation and support of Israel is a very interesting move at this time, because there have been

many people who have had dreams and visions of a very large US aircraft carrier being sunk... And Hezbollah in Lebanon have got rocket launchers that can shoot rockets as far as the Mediterranean. So, be praying for the soldiers on those ships that, if they do not know the Lord, they may come to know the Lord, because they are in harm's way and they are obeying orders, but the globalists are playing their games of war at the expense of civilians and those who do not understand what is happening.

The partial lunar eclipse will be over Israel and the Middle East on the 28th of October. That's also a Sabbath. So that is very interesting. The 14th of October, total solar eclipse is the hinge between the two weeks that were blocked out in red in Dana Stone's dream. The lunar eclipse is at the end of October, and it is a warning to Israel of trouble, but it is only a partial lunar eclipse, which will be seen in Africa, the Middle East and obviously Israel. So, these are signs in the sky.

There is a lot that is going on in the spiritual realm. Remember to break bread daily; to cover those you love, your families, your homes, your properties, even your traveling in vehicles, with the Blood of the lamb. Don't waste your time doing things that have no eternal value. Every hour that we have in these days is important. So even if you're having to do things like housework or whatever, pray in the Spirit while you are doing these kind of things, because we have to keep in tune with the Spirit in these days. Pray for all who are suffering in this terrible carnage that has broken out, for the hostages, for the people that are in mourning because they've lost loved ones, for those whose family members are missing, for those who are caught in the crosshairs of this war that has broken out, pray for the young, the children and for the elderly and for the innocent. Pray that the veil would be lifted from the eyes of the Israelis so that they may see that Jesus is the Messiah and come to know Him.

May the Lord God, keep you in the palm of His hand in these pivotal days. Always go back to the word of God. Check what He says about things. Lay your theologies down at His feet and ask the Spirit of Truth who leads us in all truth to correct us where we've been wrongly taught, to realign us, where we've misunderstood, and to lead us in paths of safety in these days. Shalom.
