

## A Banquet and a Blueprint pt 4

### [AUDIO VERSION](#)

So, this is part four of A Banquet and a Blueprint. I ended off last time speaking about the possibility of a really early Passover. One thing I did want to mention that I discovered after I recorded the last message, concerning the 500 pound gold coin that Britain has minted with the Chinese dragon, the wingless dragon, on one side and King Charles's head on the other side. The Greek G500, in the Strong's Concordance means 'antichrist', which is rather interesting. In the Year of the Dragon, the antichrist will step onto the stage, this seems to indicate. So, the Year of the Dragon begins on February the 10th, 2024. It is the same day as the first day of the first month for the Tip of the Spear calendar; the first day of Aviv (if the new moon is sighted on that night).

There is something else very significant that is going to be happening on April 8th, 2024. The planets will align during a total solar eclipse, which will pass right over the continent of

the USA and will also be visible in Mexico and eastern Canada. Interestingly, Draco, the dragon in the constellations, appears as if it's cast to Earth during the April 8th eclipse. Auriga, the Shepherd constellation, will be in the east during the April 8th eclipse, which represents safety for the redeemed in the Day of Wrath.

Now, if you do a Google search for when the new Moon in Jerusalem will be in April 2024, you will discover that it is also on April 8th, the same day as the total solar eclipse crosses America. That solar eclipse. Is the third of three that form the sign in the shape of the Hebrew letter aleph, which is the first letter of the Hebrew alphabet. Jesus said He is the Aleph and the Tav. So, it's very interesting the way God has ordained the planets and the eclipses to coincide in this way. On April the 8<sup>th</sup>, it also happens to be, as I've said, the new moon. It is the first day of the first month of the Hebrew Hillel calendar, which is what most of the religious Jews follow.

So, we have the first day of the first month, as the Year of the Dragon begins for the Tip of the Spear calendar, and in April, two months later, we have the first day of the first month of the Hillel calendar occurring with the total solar eclipse - surely a lot of signs in the sky that tell us the 2024 is going to be a tumultuous year. The Passover date for the Hillel calendar is sundown on Monday, April 22nd.

So, Beloved, if there is no second month holding pattern of Adar II for the ripening of the first fruits barley during February, if that does not happen because the barley is in a good enough state for Passover, the Orthodox Passover celebration in the Hillel calendar is a FULL TWO MONTHS after the Tip of the Spear celebrate Passover. What that tells you is that by the time the Hillel calendar celebrates Passover, the barley will be shattered, overripe, fallen to the ground - even the cultivated barley. So, we must know the times and the seasons. Even the stork knows its times and seasons, but the people do not know the times of the Lord. So, we see there's going to come in 2024 or the year 5784 a complete separation of the remnant from the rest of the spearhead, possibly by two whole months. Think of the manchild fully birthed, separated from the woman, umbilical cord cut and ascended to the throne.

On the 7th of January, 2024 during the banquet download, the Spirit referenced Easter as being the time of the release of the Dragon's flood. This is what he said at Easter: **“The idle church will be swept to destruction, but the watching ones will see and understand what is coming and warn and be led to safety”**. Easter Sunday on the

Roman calendar is March 31<sup>st</sup>, just as March ends, and then we get the month of April with the solar eclipse.

So I'm going to just give a quick summary of the sky events for the different months. Do take notes. Um, at this point, uh, because it gets a bit confused with all the different calendars and the different new moons and the different Passovers.

### 1. **FEBRUARY**

10th will hopefully be the sighting of the new moon for the month of Aviv for the Tip of the Spear, and Passover for the Tip of the Spear will then be on the 24th of February in the evening. That's the evening of 14<sup>th</sup> Aviv.

### 2. **MARCH**

10th of March is the time of the new moon. There is a penumbral lunar eclipse on the 24th of March, which will be seen by Europe, Northeast Asia, much of Australia, much of Africa, North America, South America, the Pacific, Atlantic and Arctic. So, a large percentage of the Earth is going to see that penumbral lunar eclipse on March the 24th. Then on March 31st, it is Easter in the Roman calendar.

### 3. **APRIL**

we have the new moon on the 8th, which will be the start of the month of Aviv or Nisan for the Hillel calendar. Also on the 8th is the total solar eclipse over the USA, completing the letter Aleph. And then the Hillel Passover is on the 22nd of April.

At the end of this message, I'm going to share some insights I gained by looking on Stellarium as to the positions of the planets and the constellations during the April 8th. Eclipse, but I first want to give you other information I've received previously on the month of Adar.

## Tying Up Loose Ends

Adar is the 12th month of the Hebrew calendar. That's the month when the final loose ends of the previous season are being tied up neatly, and all last-minute preparations of the big new season are being put in place. So, let's look in detail at the specific things that occurred in the first week of this important month in the Bible.

**1 - 3 Adar** was the ninth plague of darkness in Egypt.

**5th Adar** was Moses' last day of leadership. That is the 17th of January in the Early Barley Ripeness Calendar ( which we sometimes refer to as the Tip of the Spear calendar).

**6th of Adar**, which, in the Early Barley Ripeness Calendar, is 18th of January, Moses completed his writing of the Torah. He put the scroll in the ark. He transferred leadership to Joshua, and he released the Deuteronomy 32 Song of Moses and his own personal blessing on the people (Deuteronomy 33)

**7th Adar**, the anniversary of this for the Tip of the Spear is 19th of January. Moses died on his 120th birthday on Mount Nebo, and God buried him. No one knows where.

So, we can see that this particular first week of the Hebrew calendar of Adar is extremely pivotal.

- It's the week of visible separation of the people of darkness from the people of light, and the God of light demonstrates who are his during the plague of darkness in Egypt.
- It was the beginning of a new season where Moses would never see the face of Pharaoh again.
- The recording of all God had spoken in the preparation season was completed and archived in the Ark. God's spoken words to Moses in the Tent of Meeting were engraved in written form to testify against an apostate people in later years.
- It was the transfer of leadership under God's instruction, a passing of a baton, impartation, and inauguration of a new leader for a new chapter, taking the people into the promised land of their inheritance. God sang over his people through Moses, and a prophetic blessing was released on God's people by the outgoing leader.
- There was a changing of the guard in this week. Closing of an old chapter and the old leadership was permanently removed from their position.

## Of the Darkness or the Light

The 1st of Adar was when the Three Days of Darkness began. It's a pivotal day because it's a day when God demonstrated so clearly who belonged to Him. No confusion remained. In essence, those who are not God's own will experience dense darkness, a darkness that can be felt. It's going to be terrifying, but those who know Him and are called by His Name

will find their houses filled with light, despite the state of affairs outside their door. The Hebrew word for darkness also means misery, destruction, death, ignorance, sorrow, and wickedness. This is the portion of those who are not his in the days ahead. And when this ninth plague hit, there was no opportunity to quickly run into a house filled with light.

The dividing line had already been drawn and it was on the basis of DNA. Those with Egyptian DNA experienced deep, dense darkness for a prophetic three days. This is a strong warning to those sectors of the so-called church who have modelled themselves after the world. Ishmael had the right father but the wrong mother, and he was cast out. Only the true spiritual seed of Abraham will find themselves bathed in light in this season.

This section I'm going to read to you now is from 'The Remnant, Empowered and Enlightened' post:

'In Egypt, during the three days of darkness, the Israelites had light in their houses. It was a supernatural light, and in the same way, remnant, supernatural life will fill your life and your heart, even as dense darkness envelops the world in this night of trial. There is work to do for the Kingdom, and there are greater heights of holiness to climb. Press on higher, remnant of God - become more holy, more set apart unto Him.

The three days of darkness was the ninth plague, the second last contraction that pushed the people of God out of the confines of slavery and the womb of Egypt and the world system, and into the wilderness, where all provision and protection promised in the MARRIAGE COVENANT came into play. The commencement of the ninth plague marked a cut-off point. There is a time when God stops giving the enemy any more grace to let His people go of his own accord. In Egypt, this moment came on the 4th of Adar, after the three days of darkness. That was the cut-off point! No more negotiation with the powers of darkness or their human representatives. No more face-to-face time with slave masters. From this moment on, God was going to roll out a plan that gave Him all the glory, delivered His people from slavery to Egypt, and ultimately destroyed the whole enemy army... But that would only fully manifest itself seven weeks later, on the 21st of Aviv, a week after the Destroyer carried out the first portion of His righteous judgments on Egypt.

Everything God has spoken to you in the way of training and instruction in these days has been recorded and is archived in heaven at this time. He doesn't waste words. He spoke them, you heard them, and they will testify for or against you on your final day. They are the

blueprint, the plumb line you are to align your life to. The instructions heard in this week carry power to bring forth full manifestation - if you will walk them out.

I spoke in previous blog posts a couple of years back of personal pollination. You can find it on my website. Bear in mind that pollination does not necessarily mean fully formed fruit. Water, soaking in the light of the sun, nutrients absorbed from the soil where you are rooted and planted all play a pivotal role in bringing that pollination to full fruition, and the DNA of the spoken words is exceedingly precious. It was imparted by the mouth of the Creator. Nurture and guard the Divine portion that has been assigned to you. Be faithful and do not let it be stolen from you. Bring it forth, fully formed in its appointed season for the praise of His glory.

On 6th Adar, which the anniversary is today, the 18th of January, in the Tip of the Spear Calendar, after commissioning Joshua, Moses wrote down the words of the song that God had dictated to him. Then he taught it to the Israelites and God says something very specific:

*Deuteronomy 32:2 My message shall drop as the rain. My speech shall distil as the dew, as the light rain upon the tender grass, and as the showers upon the herb'.*

Adar is the month of the latter rain, which brings the grain to full maturity. In these words of God, spoken by Moses during the first week of Adar, we find out what the latter rain consists of. Verse 2 tells us it's God's spoken message, the sound of His words whispered gently in your spirit as God sings over you like rain falling on good soil. Then He says His message is like showers falling upon herbs. The Hebrew word for 'herb' also means 'sparkling light and illumination'. In other words, the herbs represent the revelation you have already planted in the soil of your heart. God is going to water those revelations and add to them. He is going to add the light of His Word to them, so that you start seeing much more clearly what He meant by those revelations. He is going to expand and grow the revelation you are already nurturing in your heart. The water of the words He releases over you in these days will bring those revelations to maturity, and they will so nourish and impart life to your spirit, that you will be found ready for harvest and marked as part of the barley firstfruits offering at the end of Aviv.

The Hebrew word for 'latter rain' also means 'eloquence'. The word for 'early rain' means 'teaching'. It is the early rain that compacts the soil and forms a firm foundation for the seed

to take root downward and begin to grow upward, BUT the harvest comes to ruin if it receives no latter rain. That's why it says in Zechariah 10:1, *'ask of the Lord rain in the time of latter rain, it is the Lord who makes lightnings (or strikes of revelation light) which usher in the rain and give men showers and grass to everyone in the field'*. Ask for rain at this time, Beloved! When the latter rain is being freely released, there is a portion of latter rain for YOU. Soak it all in every word He speaks to your heart.

Not only did God sing over His people through Moses, but Moses also released a second sound, a prophetic blessing on the tribes as he bade them goodbye on Adar 6th. There is a prophetic blessing released by the old leadership over the remnant that is going to cross over and possess the Land of Promise. It is the second portion of sound impartation released over the people that day. The first portion is the Word of God the Father over the people. The second is the word of a father and a shepherd appointed by God over the sheep under his care. It is a creative word, a word calling forth that which has not yet become manifest, to be brought forth in the future. It is the seed of a word sown into hearts that will only bring forth the full fruit of it in a future season.

Every time I hear the word 'Adar', I see a gem being set in place. Well, I discovered why this morning. The 23rd of Adar is the day that Moses commenced the consecration of the priesthood for the tabernacle in the wilderness. You can find it in Leviticus 8 and 9. I discovered that the word 'consecration' in Hebrew is 'millu', which means 'the setting of a gem or ordination of a priesthood'. So, we know that God's priests are His gems, and when He sets them in place in their function within the end time tabernacle of David that He's raising up, THIS IS THE CONSECRATION. This is the setting of a gem in place. This is the setting apart in holiness for a specific purpose.

# The Heavens Declare

So now I'm going to just discuss what I found on Stellarium about the April 8th solar eclipse and what is going on in the heavens on that day. I checked the heavens over Jerusalem, even though the solar eclipse is over the United States, as Israel is God's time clock. At 6 a.m. in the east, above the sky in Jerusalem, there is a **planetary alignment of EIGHT planets**, which is astounding for this to be happening on the SAME day as the solar eclipse.

**And there are THREE conjunctions amongst them.** In other words, two astronomical objects appear very close to each other in the sky, so they almost look like one because they are so close.

1. So going from below the horizon, the **first conjunction is Jupiter and Uranus**. Jupiter is known as the King planet, or in this case, the 'manchild being crowned' planet. And Uranus is interesting. Its name comes from the Greek word 'Ouranos' G3772, which means 'heaven or the sky'. It's referring both to the heaven where God is and to the heavens just above earth, where the planets and the stars are, and to the spiritual second heaven.

In Matthew 3:16 it says in the King James:

*'and Jesus, when He was baptized, went up straight away out of the water, and he saw, and lo, the heavens were opened (or torn open) unto Him. And He saw the*

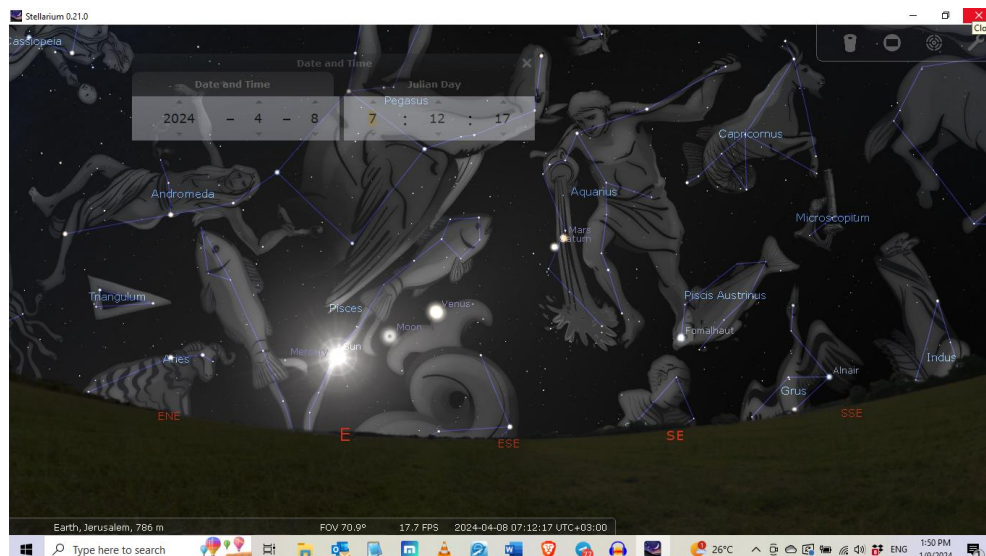

*Spirit of God descending like a dove and lighting upon Him’.*

Now, other translations and the Amplified as well seem to portray it as being John seeing the heavens opened - but when you go back to the King James and the original language, it actually says that the heavens were opened to Jesus, and Jesus saw the Spirit of God descending like a dove and lighting upon Himself. So, when we have the conjunction of Jupiter and Uranus, we see there's an allusion to the original manchild Jesus, King Jesus being openly acknowledged by God, and there is an opening of the heavens to Him, and He sees in the spiritual realm the outpouring of the Spirit of God in the form of a dove - and the outpouring is for Him. Now, John's eyes were also open to see it, but not the other people around. And then, verse 17 says, *‘A voice from heaven was heard....’* So, this very same heaven, this ouranos from which Uranus planet is named. *‘The voice said, this is My beloved Son, in whom I am well pleased’.*

So, I've said to you often before, this is an example of ‘the adoption of the sons’, or the setting in place, or the open acknowledgment of the genealogy of the son. The father is confirming that this is indeed His Son, and therefore He's opening the heavens to Him. In other words, it's definitely speaking of a new chapter and a greater increase in revelation and outpouring from the heavenly realm to the Son. So, that's what's going on below the horizon in the skies of Jerusalem at 6 a.m.

2. The second conjunction a little higher up, which is going to be seen at 6 a.m. above the horizon, is **the conjunction of Mercury and the sun**. Well, you're not going to be able to see it with the natural eye.

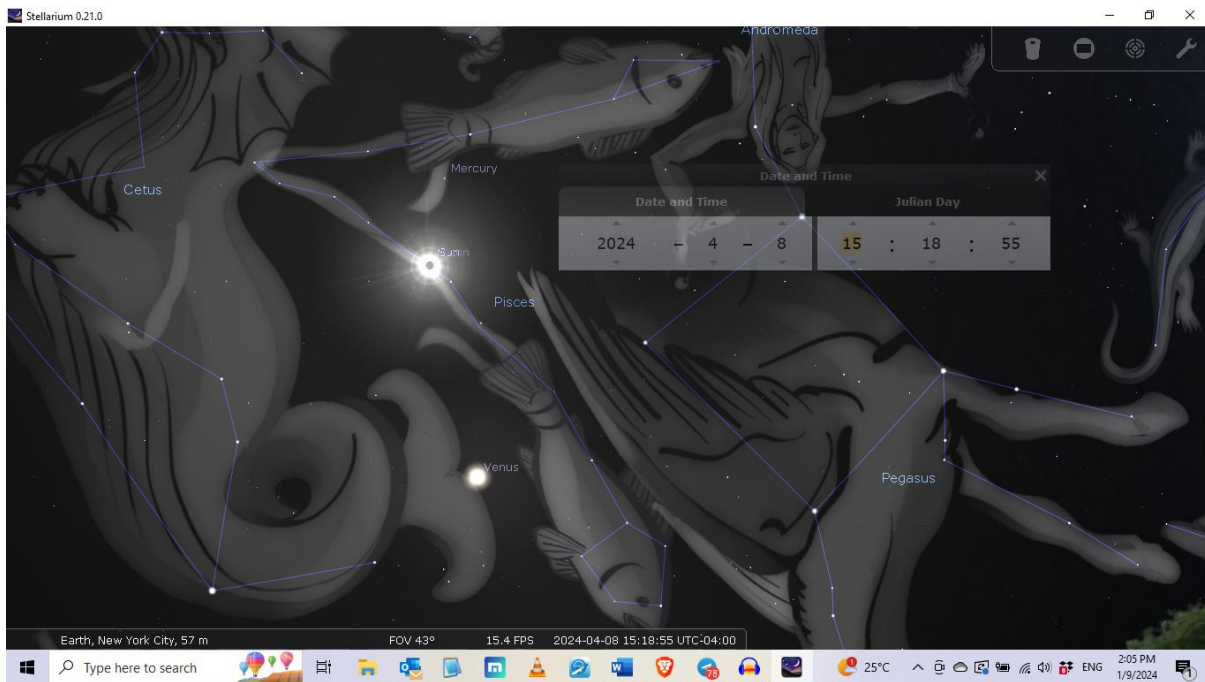

Mercury is the messenger planet and the sun represents the Sun of Righteousness. John the Baptist was the messenger. So, we have an allusion to this very same thing as Matthew 3 is talking about; the voice of John the messenger is heard, and the voice of the Son is heard with the same message - the Gospel of the Kingdom.

This conjunction of Mercury and the sun appears right on the cord holding the two fish of Pisces together. The ancient name for that band, which is considered to be a separate constellation, is 'He Cometh'. There comes One who will baptize you in the Holy Spirit, (the fullness of the Holy Spirit) and fire.

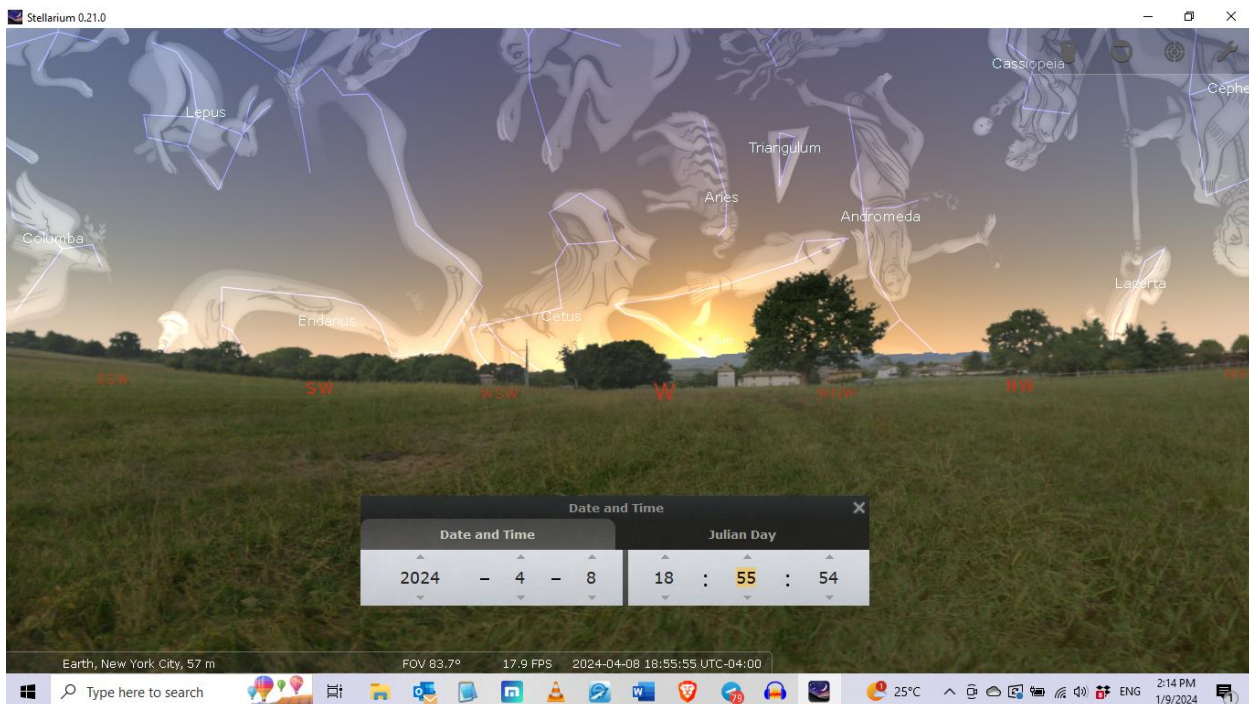

3. The next two planets after these two conjunctions that are all in alignment are the **moon and then Venus.**
4. **The third conjunction is Saturn and Mars.** They are so close together, they almost appear as one. Saturn is connected with satan and Mars is the war planet - Mars being the god of Roman god of war. And those two are in conjunction, right in the outpouring of Aquarius or the Water Bearer constellation. Who is the Water-Pourer? It is God Himself. So, during the outpouring of the latter rain upon the remnant, there is going to be war in heaven between Michael and the angels and Satan and his angels, and there is also an announcement of an outbreak of war in the earth; triggered and instigated by satan himself, the old serpent who is cast to earth after the war in Heaven in Revelation 12.

The eclipse on April the 8th is at its maximum at 6:17 in the evening, 18h17, **and from New York, the moon eclipses the sun on that chord, binding the two Pisces fish together.** So there are actually 3 planets involved in the eclipse: Mercury in conjunction with the sun - and the moon blocking both of them from the parts of the earth.

So, the eclipse itself is positioned above USA in a place that declares "Behold, He comes"! And from New York, the two fish of the Pisces constellation are positioned in such a way that one is shooting heavenward and the other is plunging downward to earth.

The other thing that is very interesting is as the eclipsed sun goes below the horizon in the sky above USA and night falls, Cetus constellation; the Beast constellation rises up from behind the horizon.

So those were the things I noticed about the April 8th eclipse and what's going on in the heavens, remembering that that is the 1st of Aviv in the Hillel calendar. They don't look for the sighting of the new moon. They've already set the first Aviv some years before. So, the

beginning of the first month in the Hillel Orthodox Jewish calendar is on the same night as that solar eclipse takes place. As that eclipsed sun goes down behind the horizon and the moon rises out from behind the horizon, the first month begins in the Hillel calendar. How very significant!

May the Lord bless you. Position yourself in praise for the outpouring that is appointed of the heavy latter rain during Adar. This brings the harvest of the Word from His lips to full ripeness in you. Lots of love to you all.
